the only battery-operated portable  
dictating/transcribing machine

with record/playback/stop/reverse  
on the microphone.

everything  
you need  
for  
error-free  
dictation

## FULL REMOTE CONTROL

DICTATE / LISTEN / STOP / REVERSE  
REVIEW / ERASE

## ON THE MICROPHONE

For new dictating ease and  
new transcribing efficiency

# the Conferette PORTABLE

COMPLETE WITH  
FULL REMOTE CONTROL MICROPHONE

**\$169**

Two remarkable dictating machines in one . . . filling two vital needs perfectly and economically! As a standard electric dictating machine, the Conferette operates on AC, has all the advanced features of much more expensive machines, surpassing them in performance, efficiency and versatility. Featuring the same operating ease as the portable Conferette, it has complete control from the microphone for dictation, review, backspace, correction. Good-looking, impressive and completely efficient as an electric machine, disconnect it and it becomes a lightweight portable, ready to go home or traveling with you! Powered by built-in batteries that automatically recharge themselves whenever machine is plugged into AC outlet. Built-in safety switch prevents overcharging. Battery charging and machine operation may continue simultaneously. Visible charge indicator tells when recharge is required. Switching from electric to battery power does not affect the speed or quality of dictation one iota! Same size as portable. Conferette-dictated tapes are compatible with many other machines.

- COMPLETE
- OPERATES ON
- 6 / 12 VOLTS
- WITH ALL T
- FAST

## POWERED BY 4 STANDARD FLASHLIGHT BATTERIES

Take your office with you . . . dictate wherever and whenever you wish, and do it with the greatest of ease with the Conferette Portable. It's the world's only battery-operated tape portable dictating/transcribing machine with dictate/stop/listen/review—all on the microphone. Weighing only 6¼ lbs. with batteries, it outperforms machines twice its size and is twice as easy and economical to operate. Use it in the office, at home, in the car, on train, plane or ship. Ready instantly at the flick of a switch to record one voice or many, faultlessly; to take down phone conversations, take orders and a thousand and one other jobs. You control everything from the microphone, with the touch of a finger.

Dictate and review as often as you wish; stop, think, change your mind, reverse, correct, and play back again . . . all without touching the machine. Gives up to 90 minutes of solid dictation. A business man's boon, a secretary's favorite for easy, accurate and fast transcription. And it's completely compatible with many other machines.

### SPECIFICATIONS:

- All transistorized; no warm-up necessary

## YOUR TRAVELING SECRETARY

### "On the go"

The Conferette is the ideal business traveling companion. Use it on plane, train, ship — it's ready to go to work instantly and efficiently. Use it battery powered, or plug it into your car lighter and dictate as you drive along.

### For Conferences and Meetings

For perfect, accurate records of meetings. Conference position switch makes it sensitive up to 35 feet. Automatically adjusts all voices to equal level, regardless of distance from microphone. Built-in speaker for group listening.

### Secretaries love it

Easiest transcription ever! Secretary can stop, start and backspace, all while still typing, using either foot or typewriter control. Your secretary has a choice of single or dual earpiece, or built-in speaker. Tapes cannot be accidentally erased while transcribing. Fast erase instantly provides a fresh clean tape after transcription.

### Amazingly economical

Costs virtually nothing to operate. PORTABLE'S 4 ordinary flashlight batteries run for hours, never run down while not in use. ELECTRIC'S rechargeable batteries last for years; provide 6 hours portable usage. Uses standard ¼" tape. Can be erased and re-used almost indefinitely.

# UNEQUALLED VERSATILITY WITH Conferette ACCESSORIES

**POWER SUPPLY UNIT** .....2131  
Adapts the CONFERETTE for operation on AC line current; automatically disconnects batteries, 29.95

**AUTO BATTERY CONNECTION** .....  
Adapts to 6 or 12-volt auto battery; plugs into lighter socket, 6V-2132, 4.49; 12V-2134, 5.95
